

EVERY LIFE MATTERS

A global biopharmaceutical company has a new injectable therapy ready for launch

It treats a devastating, ultra-rare disease

Extreme dispensing and delivery requirements prevent patient access to therapy

IMAGINE THIS:

Experienced Transportation & Logistics team implements Urgent Access Program

THE SOLUTION:

A configurable system of storage facilities, cold-chain and non-cold-chain capabilities, safe and secure supply chain, advanced temperature monitoring and tracking via GPS

RESULTING IN:

1000 lives saved to date

Therapy reaches patient in less than 8 hours, 24-7, 365 days a year

99% on time shipping, 100% shipping accuracy, 0.0% shrinkage
