

NEW 2020

MARKET ACCESS

Insurance and Benefit Design: Government

Insurance and Benefit Design: Government provides insights on potential changes in government plan benefits over the next two years, assisting companies in anticipating emerging access opportunities and risks.

- How are new government policies changing the Part D market, and how will pharmacy access evolve as a result?
- How have recently implemented changes to Part B influenced Medicare plan management of drugs, and how are proposed changes likely to influence management?
- What drug control activities are states pursuing and what actions should biopharmaceutical companies take to appropriately prepare for the changing access landscape across states?
- What actions should companies take to appropriately respond to recent state pharmacy regulations relating to Medicaid?
- What impacts will regulatory and legislative changes have on company activities and profitability?

Use **Insurance and Benefit Design: Government** to:

- Develop effective business strategies for the evolving Medicare Part D segment
- Identify recent policy changes arising from legislative and administrative actions that affect access
- Gain deeper understanding of state efforts to regulate drug pricing and importation
- Track Medicaid expansion and 1115 waiver utilization, and assess their impact on Medicaid access
- Assessment of legislative and regulatory actions that affect payers
